Trading on Stock Exchange in First Hour Shows Largest Turnover of Any Time in 10 Years.

New York, Sept. 25.—Trading in the first hour totaled 475,000 shares, a record for over 10 years. Steel supplied fully one-third of the whole, copper contributing an additional 25 per cent. All these issues made higher prices in the increasing activity of the second hour, steel selling at 120 with extensions of 1 to 2 points in Smelting and Inspiration.

Republic and Crucible Steels, Colorado Fuel and Shovel, and Max. well moved higher but rails and Mar. hines continued uncertain or heavy. Realizing and short selling were at their height at midday but prices held firm where new gains were not registered. Bonds were irregular.

The activity of the opening gained greater momentum during the first hour, the total turnover in that period amounting to 475,000 shares, a record for any first hour in over 10 years.

LACK OF SUPPLY IS AID TO WHEAT

Quotations Rise to Highest Record of the Season—Scarcity of Offerings is Cause.

Chicago, Sept. 25.—Wheat rose today to the highest prices this season. Scarcity of offerings had much to do with the latest upturn in values and so did reports of a large export demand. It was pointed out that world shipments showed a material falling off as compared with a week ago. Opening prices which ranged from 74c to 2 1/4c higher, with December at 1.54 1/2 to 1.57 1/2 and May at 1.56 1/2 to 1.57 were followed by additional gains in some cases.

Subsequently, profit taking by holders led to a material reaction despite news of a probable crop failure in Argentina unless rains come soon. The close was weak, at 1.55 to 1.55 1/2 December and 1.54 1/2 May, with the market as a whole 1/2c off to 3/4c up compared with Saturday's finish.

Corn gathered strength from wheat. Besides there was talk that 11-cent hogs meant dollar corn. After opening 1 1/2c off to 1 1/4c up, the corn market scored moderate gains all around.

In oats, the chief influence was the bulge in values of other grains. In the absence of any fresh stimulus, the provisions market seemed somewhat inclined to sag.

Later the market eased down owing to realizing sales by longs. The close was weak at 5/8c to 1c net decline.
